## FaxPress and Konica Minolta bizhub MFPs

### The Challenge of Manual Faxing

Any organization still relying on a stand-alone fax machine is all too familiar with the frustrations of manual faxing: the failed transmission attempts, the line busy signals, the time spent waiting for faxes to send. . . and resend. Add to that the time spent waiting by the fax machine for the arrival of important or confidential faxes, the time spent troubleshooting paper jams, the time spent apologizing to customers for misplaced faxes, and the labor-intensive, error-filled manual faxing process soon reveals itself to be more than just an inconvenience. Compromised customer service, inefficiency, lost productivity -- manual faxing ultimately amounts to a huge waste of time, money, and resources.

### The Network Fax Solution

Open Text Fax Appliance, FaxPress Edition offers organizations every possible computer-based, network fax option: desktop PC faxing, production faxing, fax and email integration, workflow application integration, as well as tools for developing custom fax applications.

### Save Time, Save Money

Regardless of which FaxPress product you choose: Desktop, Premier, or Enterprise Edition, you can expect reduced fax communication costs, accelerated processing time, and more streamlined, higher quality communication. Offering straightforward integration with virtually all computing applications, messaging environments and telephony interfaces, FaxPress provides network fax solutions tailored to meet the needs of any organization, whether it's a small business or large enterprise with thousands of users.

### An Integrated Fax Solution

A market leader in network fax solutions, Open Text provides an economical way for companies to integrate fax into desktop, email and back-end applications. No more walking to the fax machine or waiting around for confidential faxes. The plug-&-forget nature of FaxPress means FaxPress comes with all the necessary hardware and software and does not require per user licenses. That's why network administrators find FaxPress an easy-to-install and easy-to-manage server appliance that saves your company time and money.

### Integrate with Konica Minolta bizhub MFPs

FaxPress allows the faxing of hardcopy documents from networked bizhub MFPs resulting in secure document transmission. FaxPress can also provide bizhub walk-up faxing with destination, billing codes and

notifications options to help staff members track delivery status at their desktops or print notifications at the MFP.

By combining FaxPress functionality with bizhub MFPs, organizations can create a centralized fax document distribution environment and construct a more powerful and secure document processing system.

### Benefits of a bizhub FaxPress Integration:

- ✓ Increases ROI for networked MFPs
- ✓ Consolidate phone lines at the FaxPress server
- ✓ Eliminates MFP fax kits & legacy fax machines
- ✓ Reduces IT management costs and overhead
- ✓ Centralized fax application increases manageability
- ✓ Seamless integration with existing workflow
- ✓ Immediate cost savings
  - ◇ No fax kits in MFPs
  - ◇ No fax machines
  - ◇ Reduced analog phone lines
- ✓ Security & Compliance
  - ◇ Audit trail with history
  - ◇ Image capture and retention
  - ◇ Centralized control of fax activity
- ✓ Integration into line of business applications
- ✓ Leverages MFP investment

### Advantages of FaxPress vs. a Single Fax Board in MFP:

- ✓ Cost savings
- ✓ Aids in regulatory compliance
- ✓ Inbound Routing
- ✓ Phone Books (including Outlook Contact list)
- ✓ Reporting for the entire group, not just those that use one MFP
- ✓ Desktop Faxing
- ✓ Centralized fax capture and administration
- ✓ Easy to integrate to many MFPs

## FaxPress Desktop Edition:

Open Text Fax Appliance, FaxPress Edition represents an advanced, state-of-the-art approach to network faxing:

- ✓ Analog Environments: Open Text Fax Appliance, Desktop Edition offers up to 4 analog lines per unit in a desktop chassis
- ✓ Embedded Email Gateways: Send and receive faxes directly from the email client; no additional PC required
- ✓ Integrated File Storage: Internal hard disk stores system and fax job files
- ✓ Microsoft Office Integration: Send faxes directly from Microsoft Office using the 'Send To' menu. Secure Web Browser Interface: Use an internet browser to perform fax functions remotely
- ✓ Automated Production Faxing: Supports easy deployment of automated, production faxing in almost any environment
- ✓ Microsoft Active Directory Integration: Manage Active Directory users and Fax Appliance users from a central location
- ✓ Fax Reporting: Generate a variety of standard or customized reports for system and individual users
- ✓ Embedded Fax Archive: Database and archiving service that eliminates the need to keep copies of faxed documents
- ✓ Efficient Document Delivery: Fax forwarding, internal document routing and carbon copy capabilities
- ✓ Faxing from copiers, scanners and bizhub MFP touch screens
- ✓ Unlimited users

## FaxPress Premier Edition:

FaxPress Premier Edition includes all of the features included with FaxPress Desktop Edition plus:

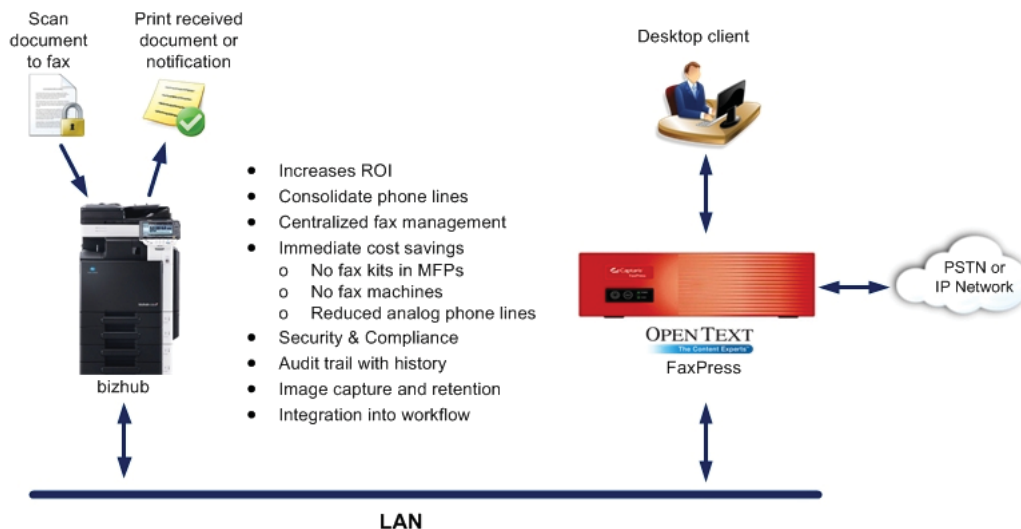

- ✓ Optional redundancy kit addresses and eliminates common points of potential failure
- ✓ Scalable up to 16 lines

## FaxPress Enterprise Edition:

FaxPress Enterprise Edition includes all of the features included with FaxPress Desktop Edition plus, redundant hardware that provides increased reliability for business-critical faxing.

Features providing improved availability include:

- ✓ Dual hot swappable hard disk drives
- ✓ RAID technology for disk mirroring
- ✓ Dual hot swappable cooling fans and power supplies
- ✓ Dual Gigabit Ethernet connectivity with client crossover support
- ✓ Industrial grade hardware
- ✓ Support for digital T1, E1, and ISDN environments in single or dual configurations for auto failover
